

Novartis Cricket club (NCC) report_ 2018

- We initiated the club and received a huge response (30+members showed interest).
- Required equipment/gear purchased and formed a good team
- Weekly trainings conducted (regular training on Wednesday evenings)
- Teamsnap account was set up to share match and training related information and updates between club members
- Sunday Matches played in Bachgraben and other places in Switzerland with various cricket clubs from Switzerland.
- organized travel to different places in Switzerland in order to play away matches
- We even had a NCC player from Novartis UK travelling over to Switzerland to play weekend matches
- NCC did extremely well for a brand new club and even succeeded in winning against well-established clubs.
